

2015 ITP10 Solution Submittal Information

Due to recent inquiries, SPP would like to clarify processes concerning the submittal of potential transmission solutions not submitted as DPPs (non-DPPs) in response to the posted 2015 Integrated Transmission Plan 10-Year (ITP10) Needs Assessment.

In order for 2015 ITP10 study timelines to be met, SPP has determined that a final submission date for all non-DPP project submittals is necessary. As a result, all proposed non-DPP **transmission** solutions received by Sunday, July 13, 2014 will be evaluated in the 2015 ITP10 process. Any transmission solution received after this date is not guaranteed to be evaluated.

Note that non-DPP solutions do not have the same the confidentiality protection prescribed to DPPs in the SPP Tariff. Also, solutions proposed outside of the DPP process will not be eligible for incentive points.

Thank you for your continued efforts to create a cost-effective, robust, and responsive transmission network in the SPP footprint.

Description	Deadline
DPP Transmission Planning Response Window	June 20, 2014, 11:59 PM
Non-DPP Submissions	July 13, 2014, 11:59 PM
