

2015 ITP10 Non-DPP Submission Deadline Reminder

Just a reminder that in order for 2015 ITP10 study timelines to be met, SPP previously provided [notice](#) that all proposed non-DPP **transmission** solutions received by Sunday, July 13, 2014 will be evaluated in the 2015 ITP10 process. Any transmission solution received after this date is not guaranteed to be evaluated.

Note that non-DPP solutions do not have the same the confidentiality protection prescribed to DPPs in the SPP Tariff. Also, solutions proposed outside of the DPP process will not be eligible for incentive points.

DPP Submittal Form - Updates

In addition, based on feedback received, we have made some slight modifications to the DPP Submittal Forms, as well as the accompanying instructions for completing the forms. While we have provided Word and Excel formats, the Excel form is the preferred option.

[Updated DPP Submittal Forms and Instructions](#)

As always, thank you for your continued efforts to create a cost-effective, robust, and responsive transmission network in the SPP footprint.
