

2015 ITP Near-Term Solution Submittal Information

In order for 2015 ITP Near-Term study timelines to be met, SPP has set the final submission date for any proposed non-DPP **transmission** solutions to be received by Friday, August 15, 2014. Transmission solutions received by this date will be evaluated in the 2015 ITP Near-Term process. Any transmission solution received after this date is not guaranteed to be evaluated.

Note that non-DPP solutions do not have the same confidentiality protection prescribed to DPPs in the SPP Tariff. Also, solutions proposed outside of the DPP process will not be eligible for incentive points.

Thank you for your continued efforts to create a cost-effective, robust, and responsive transmission network in the SPP footprint.
