

2016 ITP Near-Term (ITPNT) Draft Portfolio Project List

The 2016 ITPNT draft portfolio project list has been posted to [TrueShare](#). SPP staff would appreciate any stakeholder feedback regarding this draft portfolio by Friday, February 5, 2016, via the SPP [Request Management System \(RMS\)](#), using the “ITP – Project Inquiry” quick pick. A planning summit is being planned for late February/early March, and notice will be sent out as soon as the date is finalized.

Prior to this posting, SPP staff reviewed the proposed projects in the 2016 ITPNT and made a preliminary determination, based upon the information available, of whether each project met the requirements to be a Competitive Upgrade in Attachment Y, Section I(1).

If a project meets the requirements in Attachment Y, Section I(1) and (2) to be a Competitive Upgrade, SPP will be responsible for providing the cost estimates for the project via a third party. If the project did not meet the requirements in Attachment Y, Section I(1) and (2), SPP is requesting cost estimate information from the incumbent Transmission Owner.

This preliminary determination is solely for purposes of determining responsibility for cost estimates in the 2016 ITPNT draft portfolio. Staff may make additional changes to the portfolio before it is finalized. An official determination of whether a project meets the requirements to be a Competitive Upgrade in Attachment Y, Section I(1) will not be made until approval of a final portfolio by the SPP Board of Directors at the April 2016 meeting.

SPP is requesting cost estimates from incumbent Transmission Owners in this phase of the 2016 ITPNT process for purposes of completing the evaluations in the 2016 ITPNT planning process. SPP Staff will request the required Study Cost Estimates be completed and submitted in TAGIT by **no later than February 24, 2016**.
