

Updated 2017 ITP 10-Year Assessment (ITP10) *Final* Economic Models

An update to the final 2017 ITP10 economic model posting has been made. The event (EVE) files to utilize along with the economic models have been updated consistent with the events currently under an approval vote at the TWG. **This updated posting does not include a change to the scenarios.**

Staff will be seeking final approval of the models posted on March 11th at the March 17th ESWG meeting.

Special Notice Regarding New Requirement for Model Access

Stakeholders will be required to complete and sign a joint [Critical Energy Infrastructure Information \(CEII\) form](#) previously developed between SPP and MISO. This is required as the current models include MISO CEII data in addition to SPP’s data. The MISO data was used to model regions external to SPP. For stakeholders that have already completed the joint CEII form due to participation in past studies, they should already have access. To obtain access to the applicable TrueShare folder identified below, please sign and return the form via the [SPP Request Management System \(RMS\)](#) using the “Request TrueShare Access” Quick Pick (**Note:** This required form for this request is in addition to the default confidentiality agreement linked in RMS.). This required form is located on the [SPP website](#)¹ and does not supplant the requirement to also complete the SPP confidentiality agreement if you have not already done so, as described below.

These files can be found on TrueShare under:

Trueshare >> Integrated Transmission Planning--Confidential and Protected Material and or Critical Energy Infrastructure Information-Do Not Release >> 2017 ITP10 >> Joint NDA – 2017 ITP10 Models

Files posted on TrueShare:

For users who license ABB nodal simulation ready software:

Folder or File Name	Description
2017ITP10_2020_F1_F3_MASTER_EVE_20160317.eve	2020 Event File (2020 Futures 1 and 3 Only)
2017ITP10_2020_F2_MASTER_EVE_20160317.eve	2020 Event File (2020 Future 2 Only)
2017ITP10_2025_MASTER_EVE_20160317.eve	2025 Event File (compatible with all 2025 models)

Information for obtaining the 2017 ITP10 models

In order to obtain access to these documents in TrueShare, stakeholders must provide SPP with a signed [confidentiality agreement](#). Instructions can be obtained by clicking on the link. Please submit these forms via **RMS** through the “Request TrueShare Access” Quick Pick. After the executed confidentiality agreement is received, an account will be created for the requester on TrueShare. An email with instructions for logging on will be sent to requester. For those that already have a TrueShare account, no additional action is necessary.

As a reminder, instructions for accessing the model information can be found on the SPP website [here](#).
