

2017 ITP 10-Year Assessment (ITP10) Economic Model Approved

The Approved 2017 ITP10 economic models have been posted to Trueshare. The economic models posted are representative of all three (3) Futures in 2020 and 2025. Event files (EVE) are reflective of the constraints approved by the TWG on March 16th. SPP Staff is utilizing PROMOD IV 11.1.7 for the 2017 ITP10. These economic models were approved at the March 17th ESWG meeting.

Special Notice Regarding New Requirement for Model Access

Stakeholders will be required to complete and sign a joint [Critical Energy Infrastructure Information \(CEII\) form](#) previously developed between SPP and MISO. This is required as the current models include MISO CEII data in addition to SPP’s data. The MISO data was used to model regions external to SPP. For stakeholders that have already completed the joint CEII form due to participation in past studies, they should already have access. To obtain access to the applicable TrueShare folder identified below, please sign and return the form via the [SPP Request Management System](#) (RMS) using the “Request TrueShare Access” Quick Pick (Note: This required form for this request is in addition to the default confidentiality agreement linked in RMS.). This required form is located on the [SPP website](#)¹ and does not supplant the requirement to also complete the SPP confidentiality agreement if you have not already done so, as described below.

The updates since the Final economic models posted on March 10th are:

- Refined carbon taxes for Futures 1 and 2 models as discussed at the March 17th ESWG meeting
- Addition of suppressed regional- and state-specific carbon prices for non-affected generating units for Futures 1 and 2 as approved at the March 17th ESWG meeting

There have been no changes made to the Future 3 models.

File Name	Description
2017 ITP10 F1 Economic Model Inputs_Approved.xlsx	Spreadsheet containing 2020 and 2025 PROMOD Database inputs for Future 1
2017 ITP10 F2 Economic Model Inputs_Approved.xlsx	Spreadsheet containing 2020 and 2025 PROMOD Database inputs for Future 2
2017 ITP10 F3 Economic Model Inputs_Approved.xlsx	Spreadsheet containing 2020 and 2025 PROMOD Database inputs for Future 3

Information for obtaining the 2017 ITP10 models

In order to obtain access to these documents in TrueShare, stakeholders must provide SPP with a signed [confidentiality agreement](#). Instructions can be obtained by clicking on the link. Please submit these forms via **RMS** through the “Request TrueShare Access” Quick Pick. After the executed confidentiality agreement is received, an account will be created for the requester on TrueShare. An email with instructions for logging on will be sent to requester. For those that already have a TrueShare account, no additional action is necessary.

As a reminder, instructions for accessing the model information can be found on the SPP website [here](#).
