

2018 Series Final SPP Economic Generation and Load

SPP Staff has posted the final economic parameters for generation and load data utilized in SPP economic studies, including the 2019 ITP.

These files can be found on [GlobalScape](#) under “ITP (CEII, RSD) → ITP → Non-Competitive” in the “ABBNDA_NDA” folder and on [TrueShare](#) under “SPP Modeling → 2018 Series → Economic Model Data” in the “Final” folder.

ESWG and TWG members will vote to finalize all generation and load data for the 2019 ITP study using their email voting protocol.

SPP staff has provided a summary of changes made to the Generation and Load Review workbooks after January 15, 2018, in order to guide stakeholder review for approval.

Also note, SPP staff is reviewing retirement dates in the generation review and the powerflow models to ensure consistency between the Economic and Base Reliability models. SPP staff will **not** be seeking approval of retirement dates at this time. A separate data request will be sent to gather feedback on discrepancies between economic generation review retirement dates and powerflow retirements, Future 1 and Future 2 age-based retirements, and Future 1 age-based retirement exceptions.

Information for obtaining the 2018 Series SPP Economic Generation and Load Data

In order to obtain access to these documents in [GlobalScape](#) or [TrueShare](#), stakeholders must provide SPP with a signed [confidentiality agreement](#). Instructions can be obtained by clicking on the link. Please submit these forms via [RMS](#) through the “Request Globalscape Access” or “Request TrueShare Access” Quick Pick. After the executed confidentiality agreement is received, an account will be created for the requester on [GlobalScape](#) or [TrueShare](#). An email with instructions for logging in will be sent to the requester. For those that already have a [GlobalScape](#) or [TrueShare](#) account, no additional action is necessary.

As a reminder, instructions for requesting access to the model information can be found on the SPP website [here](#).

FILE Information

File Name	Description
SPP-2018-Economic Generation Data_Final_20180124.xlsx	Generation Data
SPP-2018-Economic Load Data_Final_20180124.xlsx	Load Data
Summary of Changes to Generation and Load Review.xlsx	Summary of Changes since 1/15/2018
