

Economic Model Data Request Guidelines Posting

An updated draft of the Economic Model Data Request Guidelines has been posted to SPP.org under ESWG Meeting Materials. The objective of this document is to detail the data requests associated with the ITP Economic Model Build as requested in ESWG Action Item 186. Also provided is a presentation summarizing the updates incorporated into the document. An overview of these and any additional updates be presented at the ESWG meeting on October 11, 2018.

In order to address any additional necessary changes at the September ESWG meeting, please review and provide any feedback **via RMS by Monday, October 8, 2018.**

The following items in the draft document have been updated since the initial posting on Wednesday, August 8, 2018:

- ITP Data Requests
 - Generation Review
 - Updated flow chart to include stakeholder feedback loop
 - Added details for Heat Rate profiles
 - Rearranged and added section in order to reflect workbook tabs and formatting of 2020 ITP Generation Review posting on September 14, 2018
 - Ownership
 - Renewable Accreditation
 - Curtailment Pricing
 - Energy Limits
 - Added additional details and clarifying language for the Annual Capacity Adjustments
 - Load Review
 - Updated flow chart to include stakeholder feedback loop
 - Rearranged and added section in order to reflect workbook tabs and formatting of 2020 ITP Load Review posting on September 14, 2018
 - Station Service Load
 - Economic Model Build
 - Added additional details for the “Select Gen & Load Updates from Previous Study” step of the Economic Model Build
 - Minor language/formatting edits throughout

Information for obtaining posted data:

This document can be found on SPP.org under “SPP Documents → Engineering & Planning” in the “ITP Postings (formerly in Order 1000 Documents)” folder.
