

2019 ITP Draft Project List

The draft list of projects for the 2019 ITP has been posted to [GlobalScape](#). **Feedback regarding this draft project list is due Friday, May 10, 2019, via the SPP Request Management System (RMS), using the “ITP-Data Submission” quick pick.** SPP staff will evaluate any feedback received to inform the first draft portfolio of the 2019 ITP that will be presented and discussed at the Engineering Planning Summit being held Wednesday and Thursday, May 29-30, 2019 at the SPP Corporate Offices in Little Rock. This project list intends to show the top-ranking projects staff has identified to solve any remaining needs which have not been addressed by model adjustments, previously issued NTCs, or operating guides.

Prior to this posting, SPP staff reviewed the proposed projects in the 2019 ITP and made a preliminary determination, based upon the information available, of whether each project met the requirements to be a Competitive Upgrade in Attachment Y, Section I (1).

If a project meets the requirements in Attachment Y, Section I (1) and (2) to be a Competitive Upgrade, SPP will be responsible for providing the cost estimates for the project via a third party. If the project did not meet the requirements in Attachment Y, Section I (1) and (2), SPP is requesting cost estimate information from the incumbent Transmission Owner. For more information, see [SPP Business Practice 7660](#). For those estimates requested from the incumbent Transmission Owner, a separate notification will be sent out.

This preliminary determination is solely for purposes of determining responsibility for cost estimates in the 2019 ITP draft list of projects, which will in turn be used to develop a draft portfolio. Staff may make additional changes to the portfolio before it is finalized. An official determination of whether a project meets the requirements to be a Competitive Upgrade in Attachment Y, Section I (1) will not be made until approval of a final portfolio by the SPP Board of Directors.
