

2020 ITP External Resource Plan

A presentation detailing the 2020 ITP External Resource Plan has been posted to [GlobalScape](#). This presentation outlines the 2019 MISO Transmission Expansion Plan (MTEP19) futures, in order to review the appropriateness of utilizing the MTEP19 resource plan for external entities.

Due to the Critical Energy Infrastructure Information (CEII) contained in this posting, the details used for evaluation of the MTEP19 model cannot be posted in a public forum.

Special Notice Regarding Requirement for Modeling Data Access

Stakeholders will be required to complete and sign a joint [CEII form](#) developed between SPP and MISO. This is required as the current models include MISO CEII data in addition to SPP’s data. The MISO data was used to model regions external to SPP. For stakeholders that have already completed the joint CEII form due to participation in past studies, they should already have access. To obtain access to the applicable GlobalScape folder identified below, please sign and return the form via the [SPP Request Management System](#) (RMS) using the “GlobalScape Access Request” Quick Pick (**Note:** This required form for this request is in addition to the default confidentiality agreement linked in RMS.). This required form is located on the [SPP website](#)¹ and does not supplant the requirement to also complete the SPP confidentiality agreement if you have not already done so, as described below.

Material Disclaimer

CONTAINS CONFIDENTIAL AND PROTECTED MATERIAL NOT AVAILABLE TO COMPETITIVE DUTY PERSONNEL – DO NOT RELEASE

Information for obtaining posted data:

In order to obtain access to these documents in [GlobalScape](#), stakeholders must provide SPP with the following signed [confidentiality agreements](#). Instructions can be obtained by clicking on the link. Please submit these forms via [RMS](#) through the “GlobalScape Access Request” Quick Pick. After the executed confidentiality agreement is received, an account will be created for the requester on [GlobalScape](#). An email with instructions for logging in will be sent to the requester. For those that already have [GlobalScape access](#), no additional action is necessary.
