

Good afternoon,

This email serves as notification of the commencement of the annual resource adequacy process specified in Attachment AA of the SPP Tariff. The following is a timeline for when Market Participants (MP), Load Responsible Entity's (LRE) and Generator Owners (GO) are required to meet their respective obligations:

February 15th

- Initial Workbook submission is due from the MP, or LRE and GO

May 15th

- Deadline for an LRE to cure capacity deficiency
- Deadline for the LRE and GO to update the Workbook to reflect purchases and sales that occurred after the initial submission

Additional information regarding the resource adequacy process can be found on the [SPP website](#).

If you have any questions, please send them to ResourceAdequacy@spp.org.

Best Regards,

SPP Resource Adequacy Team
