RE: Notification to Construct with Conditions for Transmission Service Request resulting from Aggregate Transmission Service Study SPP-2019-AG1-AFS-2

Dear Mrs. Onnen,

Pursuant to Section 3.3 of the Southwest Power Pool, Inc. ("SPP") Membership Agreement and Attachments O and Y of the SPP Open Access Transmission Tariff ("OATT"), SPP provides this Notification to Construct ("NTC") directing Evergy Kansas Central, Inc. ("EKC"), as the Designated Transmission Owner, to construct the Network Upgrades. This NTC is conditioned upon EKC not ordering materials or beginning construction until:

- (1) the DTO submits a refined NTC-C Project Estimate ("CPE") to SPP that has a variance bandwidth of -20% to +20% that does not exceed the Study Estimate variance bandwidth of -30% to +30% as provided for in SPP's Business Practices; or
- (2) the SPP Board of Directors considers SPP's re-evaluation of a project that has a refined CPE from the DTO that exceeds the Study Estimate variance bandwidth of -30% to +30% as provided for in SPP's Business Practices.

On November 7, 2019, SPP concluded that the project is required on the EKC system to fulfill Transmission Service Requests as detailed in Aggregate Facility Study SPP-2019-AG1-AFS-2.
