

2021 ITP External Resource Plan - Update

- **Action Required**

A presentation detailing the 2021 ITP External Resource Plan has been posted to [GlobalScape](#). This presentation outlines the 2020 MISO Transmission Expansion Plan (MTEP20) futures, Associated Electric Cooperative Incorporated (AECI), and SaskPower (SASK) in order to review the appropriateness of utilizing resource plan for external entities.

Due to the Critical Energy Infrastructure Information (CEII) contained in this posting, the details used for evaluation of the resource plans, cannot be posted in a public forum.

- **Special Notice Regarding Requirement for Modeling Data Access**

Stakeholders will be required to complete and sign a joint [CEII form](#) developed between SPP and MISO. This is required as the current models include MISO CEII data in addition to SPP's data. The MISO data was used to model regions external to SPP. For stakeholders that have already completed the joint CEII form due to participation in past studies, they should already have access. To obtain access to the applicable GlobalScape folder identified below, please sign and return the form via the [SPP Request Management System](#) (RMS) using the "GlobalScape Access Request" Quick Pick (Note: This required form for this request is in addition to the default confidentiality agreement linked in RMS.). This required form is located on the [SPP website](#)¹ and does not supplant the requirement to also complete the SPP confidentiality agreement if you have not already done so, as described below.

- **Entities Required to Provide Feedback:**

All interested stakeholders

- **Due Date and Method of Submittal**

Please review and provide feedback on the External Resource Plan by **Friday, August 28, 2020** via the SPP Request Management System (**RMS**) under the "ITP-Data Submission" Quick Pick. A motion for approval will be requested from the ESWG via email on **Monday, August 31, 2020**.
