AGENDA ITEM 2 – APPROVE 11/6/20 MEETING MINUTES

Kevin Pera (XCEL) made a motion to approve the 10/16/20 meeting minutes. Keith Carman (TSGT) seconded the motion. There were no abstentions or oppositions. The 10/16/20 meeting minutes were approved.

AGENDA ITEM 3 – CURTAILMENT METHODOLOGY DRAFT

The working group continued to discuss the draft curtailment methodology. OATI was present to discuss functionality of ECC regarding alternate relief provided. According to OATI, there is a mechanism to manually enter alternate relief. OATI took an action item to draft how the BA and RC can enter this information in the tool. Additionally, OATI will add language to the “curtailments of tags that come in after the event is called” section. Ashley Stringer (SPP) will send to the group once received.

AGENDA ITEM 4 – DISCUSS CONFIGURABLE SHIFT FACTOR CO

Dede Subakti (RC West) provided an update to the group on the configurable shift factor change order. The ability to select and switch factors utilized in UFMP is an administration right with OATI and not the RC. This requires RC West to contact the OATI help desk to make the change. RC West created a manual process for any instances the RCs identify the need to change factors and must contact RC West to initiate the change. Subakti has requested feedback from the working group. The group discussed how often this issue is experienced, it is thought to be rare, and would typically only show up due to model building issues. Additionally, timing of the request was discussed. A critical ticket entered with OATI would be analyzed within 30 minutes. The working group had no further comments on the document. Dede Subakti will work with the RCs to finalize the procedure.

AGENDA ITEM 5 – CRITICAL DEVICE ALARMING

Dede Subakti (RC West) discussed the proposed Change Order on the alarming of critical mappings during model uploads. Subakti is providing it to the committee to identify what should be included and what aspects require alarming. OATI will weigh in on potential alarming

options for qualified paths. Discussion is ongoing and will be presented as a formal Change Order at a later date.

AGENDA ITEM 6 – COMPETING PATH CHANGE ORDER

In June, the UFC presented a competing path change order to the ECCWG that was submitted to OATI for quote. OATI presented two potential options for the group to consider. Option 1 includes independent issuance with calculation on competing path. Option 2 includes simultaneous issuance on qualified and competing paths. Since this CO was originally submitted by the UFC, Ashley Stringer (SPP) will forward the proposed options to that group for further discussion. Once reviewed at the UFC, they will bring the decision back to the ECCWG.

AGENDA ITEM 7 – REVIEW ACTION ITEMS
