

## 2021 ITP Market Powerflow Models (MPM) – Updated Final Pass Information

- **Action Required**

- SPP has posted the updated final 2021 ITP MPM to [GlobalScape](#) for stakeholder review.

- **Entities Required to Provide Feedback**

All interested stakeholders, TWG members

- **Due Date and Method of Submittal**

Please provide feedback by **Thursday, July 29, 2021** via the [SPP Request Management System \(RMS\)](#), using Request Type “ITP Submittals” and Subtype 1 “Data Submission.”

- **Changes from Last Pass**

SPP has discovered multiple demand groups without hourly load shapes assigned in the 2021 Market Economic Model, which is an input to the Market Powerflow Models. Because of this issue, load values from the economic model were slightly inaccurate for the areas without hourly load shapes. SPP corrected the demand groups with applicable load shapes and applied the new load values and generation dispatch to the Market Powerflow Models. Following previous practices for model corrections, the models are updated and will not be proposed for re-approval. Three of the updated models will be utilized for SPP’s 2021 TPL assessment.
