

**Southwest Power Pool
Generation Interconnection Manual Task Force Charter
July 21, 2022**

PURPOSE

The Generation Interconnection Manual Task Force (GI Manual TF) is responsible for reviewing and updating the Southwest Power Pool (SPP) GI Manual. The GI Manual TF will review the GI Manual language and processes and will propose new language and changes to the current manual to facilitate effective and efficient Generation Interconnection studies pursuant to the direction of the Transmission Working Group (TWG). The GI Manual TF will make a recommendation to the TWG of its findings.

SCOPE OF ACTIVITIES

In carrying out its purposes, the GI Manual TF will:

1. Meet periodically to review the existing GI Manual, discuss needed improvements, and propose new language in light of the recommendations of the TWG and Generation Interconnection Users Forum (GIUF),
2. In the first phase (estimated July to October 2022), the main task is to review the current GI Manual language, promoting changes to the existing language that clarify and detail the existing GI process along with ensuring previously approved TWG changes to the GI process are reflected properly while avoiding schedule and material impact in current GI activities, and establish the current GI Manual process under an SPP Business Practice (RR493),
3. In the second phase (estimated October 2022 to March 2023), provide additional changes or improvements to the current GI Manual Business Practice as proposed and prioritized by the GI Manual TF,
4. In the third phase (estimated April to July 2023), add new language to the current GI Manual Business Practice and review the current practices preparing the GI Manual for the Consolidated Planning Process,
5. Submit new or modified language related to current processes/methodologies changes being proposed to the TWG for approval,
6. Provide frequent updates to the TWG on the status and progress of GI Manual.

REPRESENTATION

GI Manual TF membership will consist of at least six and up to eight members representing SPP Members, including a chair.

DURATION

The GI Manual TF is expected to finish work by July 2023.

REPORTING

The GI Manual TF reports to the TWG.
