INTRODUCTION

The Integrated Marketplace Training Catalog is a guide to Marketplace training courses and materials. This document categorizes Marketplace training by topics (or subject areas) to help you quickly locate desired training for Market Participants (MPs) that are new to Southwest Power Pool (SPP), need to onboard new staff at their organizations, or need a refresher about Marketplace topics.

NOTE: This document is owned by SPP's Stakeholder Training. For questions or comments, send an email to SPPStakeholderTraining@spp.org.

To download the latest version of this document, use this [link](https://www.spp.org/stakeholder-center/stakeholder-training/) on spp.org (<https://www.spp.org/stakeholder-center/stakeholder-training/>) and go to Related Documents.

NERC CONTINUING EDUCATION HOURS

At this time, Stakeholder Training does not offer NERC Continuing Education Hours (CEHs) for the majority of its Marketplace courses. Only one Marketplace course offers CEHs and is notated accordingly in this catalog.

For a list of all courses that do provide CEHs, see the **2023 Stakeholder Training Reliability Course Catalog** on spp.org (<https://www.spp.org/stakeholder-center/stakeholder-training/>) under Related Documents.

TRAINING CATALOG OVERVIEW

TYPES OF TRAINING

The table below details the types of training content available in the SPP Learning Center. The icons shown are the same as those that display in the SPP Learning Center when searching and registering for training.

Icon	Brief Description
 <p>Online Classes</p>	<p>Online classes are single eLearning modules, also known as computer-based training (CBT) modules. These are self-paced and can be paused/re-played at the discretion of the learner.</p> <p>Some online classes will have a prefix of "Learning Burst". These are short-targeted segments of online training that deliver basic and valuable knowledge in short "bursts" or sessions (10 minutes or less).</p>
 <p>Curriculum</p>	<p>A curriculum is a collection of online courses available as a complete package in the SPP Learning Center.</p>
 <p>Events</p>	<p>Events include both instructor-led and virtual instructor-led training (ILT and VILT) as a live delivery. Events will have one or more sessions to select time and location preference.</p>
 <p>Videos</p>	<p>Videos will have the play button icon to indicate a recorded video and/or audio file format.</p>
 <p>Materials</p>	<p>Materials are topic-specific objects available for the learner's reference in the SPP Learning Center. There are many types of reference materials available such as:</p> <ul style="list-style-type: none"> • Job Aids • User Guides • Reference Guides • Reference Cards

SPP LEARNING CENTER INFORMATION

CREATING AN ACCOUNT IN THE SPP LEARNING CENTER

First-time visitors to the SPP Learning Center must create an account using their business email address to gain access. The following information is needed to register and create a login account:

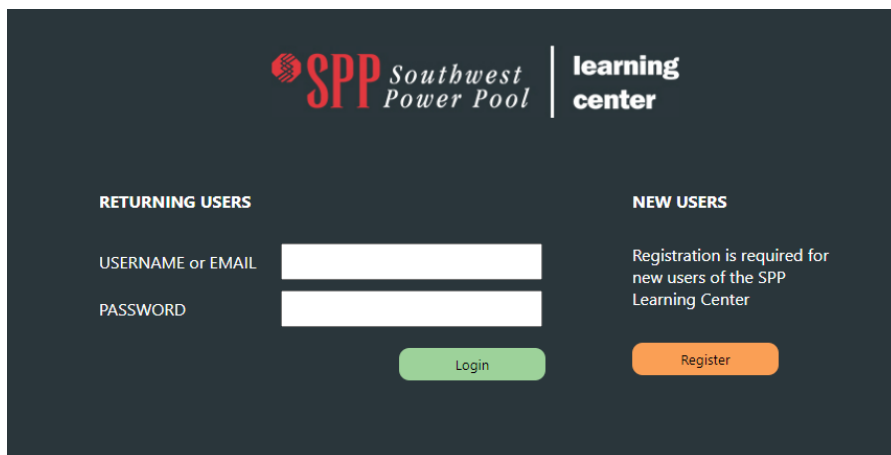

1. A valid business email address
2. Your entity registration status (i.e. Member or Non-Member)
3. Division/Company name of entity

MEMBER VS. NON-MEMBER REGISTRATION STATUS

MEMBER REGISTRATION – Employees of SPP member companies.
For a list of SPP member companies, go to the Member page of [SPP.org](https://spp.org).

NON-MEMBER REGISTRATION – Employees of non-member companies.
This includes Market Participants, registered entities who are not SPP members, etc.

To create your account go to spp.csod.com and click **Register**. Contact LMS@spp.org with any questions.

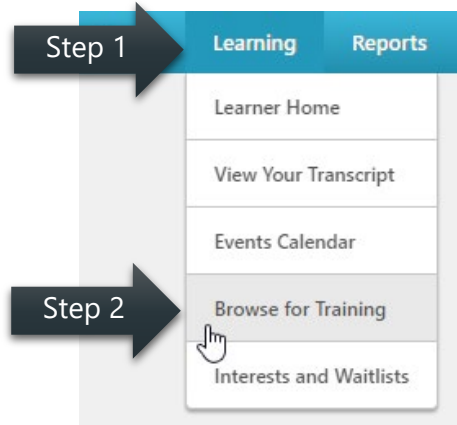

The screenshot shows the SPP Learning Center login and registration page. The header features the SPP Southwest Power Pool logo and the text 'learning center'. Below the header, there are two columns: 'RETURNING USERS' and 'NEW USERS'. The 'RETURNING USERS' column has two input fields for 'USERNAME or EMAIL' and 'PASSWORD', followed by a green 'Login' button. The 'NEW USERS' column has a message: 'Registration is required for new users of the SPP Learning Center' and an orange 'Register' button.

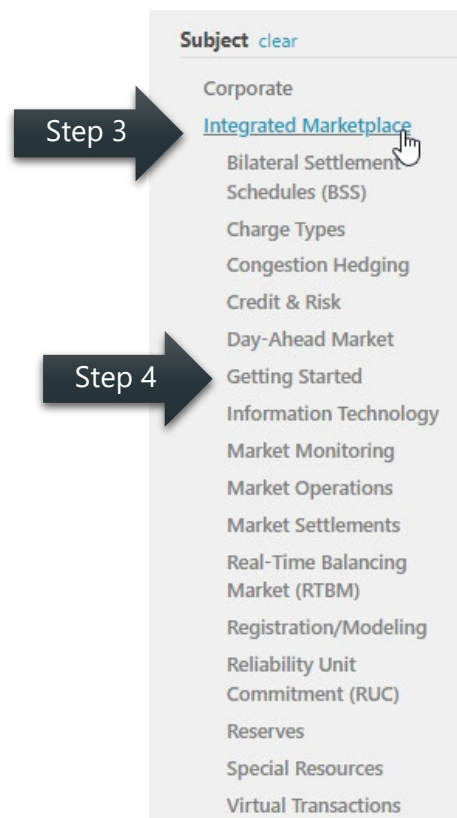

BROWSE FOR TRAINING

After you create an SPP Learning Center account and log in with your credentials, follow the below steps to find Integrated Marketplace training by Subject areas.

1. Click on the **Learning** tab at the top of the page.
2. Select **Browse for Training** from the dropdown menu.

3. Click on the **Integrated Marketplace** Subject area to expand the selection.
4. Click on the desired Subject area to display a list of applicable training.

KEY WORDS AND QUICK SEARCHES

Click on a keyword below to view the list of courses available for a given subject. Click on the images for each to take you to that subject in the Learning Center.

After logging in to the SPP Learning Center, use the "IMP" search keyword provided to search for all courses for a given topic.

The results from the search will look like this:

To locate the same course using a Title:

Type "Getting Started with SPP Portal" in the SPP Learning Center Search field.

The results will be the same as shown above.

ONBOARDING: WHAT COURSES DO I NEED TO TAKE?

Market Participants (MPs) are required to complete training during the onboarding process. Each course listed in this catalog will indicate if it is recommended for Asset-Owning MPs or Financial Only MPs, respectively, for onboarding.

If you are with an Asset-Owning (AO) entity, look for the "X" in the **AO** column to the right of the course title. If you are with a Financial Only (FO) entity, look for the "X" in the **FO** column to the right of the course title. **If there is NO "X" in either column, the course is not recommended for onboarding.** However, you are welcome to take the course, if desired.

Subject areas provide the best way to target which training you should take based on your role and responsibilities within your MP organization. You can find a list of those subject areas on [Page 5](#) of this catalog.

The [Getting Started](#) courses are the BEST place to begin your training and provide all MPs, regardless of role, an overview of the foundational concepts of the Integrated Marketplace.

Completion of additional training in this catalog will vary, depending on your role within your MP organization. However, SPP Stakeholder Training encourages AT LEAST one individual within each organization to complete ALL training listed during the onboarding process.

IMPORTANT ONBOARDING NOTE:

All recommended training must be completed by one or more individuals within each organization.

Completion of this training will provide MPs with knowledge of the Marketplace concepts and activities necessary for efficient and effective participation in not only Member Training Environment (MTE) testing, but also in the production environment.

While these courses provide learning opportunities that aid understanding, each MP organization will be expected to certify performance readiness upon completion of the onboarding process.

Submit an Inquiry via the [Request Management System](#) (RMS) with any questions:

- Questions regarding the recommended training? Choose "Training" in the Subtype 1 field.
- Questions regarding onboarding? Access your Open Ticket in the RMS.

Several “user guides” reside on SPP.org and can be found by either clicking the links below or searching with the document name using the Search option from the home page.

Name	Description
<u>Integrated Marketplace Markets User Interface Guide</u>	A reference guide for Market Participants that describes how to submit bids and offers as well as view Market results in the Markets User Interface (UI). The following functional areas, presented as tabs in the UI, are described in this document: Administration, Demand Bids, Load Forecast, Market, Reserve Zone, Resource Offers, and Virtual Energy Bids and Offers.
<u>Marketplace Markets Web Service</u>	A reference document for Market Participants who interact with the Marketplace system using XML.
<u>SPP Marketplace Public Data Guide and Samples</u>	This guide provides information and links to Public Data available for Marketplace.
<u>Interchange Scheduling Reference Manual</u>	The purpose of the Interchange Scheduling Reference Manual is to provide Transmission Customers (TCs) and Market Participants (MPs) information on the business rules that are to be followed when scheduling with the SPP Balancing Authority and the Integrated Marketplace. Additionally, this document will allow the TC/MP the information necessary to assist them in determining if there are system changes related to Scheduling that they must make within their own companies. This document is a reference manual only and is not an official SPP Governing Document.

<p><u>Transmission Service Reference Manual</u></p>	<p>The purpose of the Transmission Service Reference Manual is to provide new Transmission Customers and Market Participants information about acquiring Transmission Service.</p> <p>This document is a companion to the Interchange Scheduling Reference Manual, which describes the business rules for scheduling with the SPP Balancing Authority and the Integrated Marketplace. This document is a reference manual; it is not an official SPP Governing Document.</p>
<p><u>Settlement User Interfaces Guide</u></p>	<p>A reference guide for users supporting Market and/or Transmission Settlement activities. This guide describes how to submit, and if applicable, approve input data, register for event notifications, view reports and Settlement results (e.g. invoices, statements) via user interfaces available in the Marketplace Portal.</p>
