- 1/ For transactions not covered by an umbrella service agreement, the customer response must be execution of a service agreement or a request that an unexecuted service agreement be filed with the Commission pursuant to Section 15.3 of the Tariff. For transactions under an umbrella service agreement, the above times are the deadlines by which time the customer must notify the Transmission Provider of its acceptance of the offer to provide transmission.
- 2/ The Transmission Provider, in its discretion exercised on a non-discriminatory basis, may waive any of these requirements.
- 3/ All Next-Hour Market requests are submitted on schedule request and are deemed to be pre-confirmed.
- 4/ Excluding Sundays and NERC Holidays.
- 5/ Or 23:00 of previous day if for first hour of day.
- 6/ Non-firm schedules will be accepted after 15:00 day prior if there are no new reliability risks identified since the reservation was accepted. This includes but is not limited to NERC TLR in effect.
- 7/ With regard to non-firm hourly for next day transmission involving the DC ties under this Tariff, the following rule applies to limit abuse of the Transmission Provider's scheduling process: If more than three (3) requests are submitted by the same Transmission Customer or group of affiliated Transmission Customers per DC tie, per direction between 09:55:00 a.m. and 10:05:00 a.m. CPT, then all such requests shall be considered invalid.
- 8/ All transmission service requests received within the first five minutes after the specified deadline shall be deemed as having been received simultaneously. Transmission Provider shall not make such requests publicly available via the OASIS or otherwise until the close of the five minute period. Subject to the preceding sentences, a lottery system conducted by the Transmission Provider shall be used to assign priorities for reservation requests received simultaneously. Allocations of capacity shall be based on the priority established by such lottery in conjunction with the duration of transmission service requested consistent with the principles set forth in Sections 13.2 and 14.2 of the SPP OATT.
- 9/ For displaced and superseded purposes, Daily Non-Firm On-Peak hours and Daily Non-Firm Off-Peak hours services will have a NERC priority (3-ND) greater than Hourly Non-Firm (2-NH) service. A Daily Non-Firm request that is 24 hours in duration will have priority over a Daily Non-Firm request for either the On-Peak hours only or the Off-Peak hours only. For curtailment purposes, a tagged transaction utilizing Daily Non-Firm On-Peak hours or Daily Non-Firm Off-Peak hours transmission service will be assigned a priority of 3-ND to be curtailed with other transactions with a priority of 3-ND on a pro rata basis. The Customer taking Daily Non-Firm On-Peak hours or Daily

Non-Firm Off-Peak hours transmission service will be charged the applicable Attachment T rate for daily service determined by the day for which the service is being reserved. Unless otherwise explicitly stated in Attachment T, Off-Peak days are defined as Saturdays, Sundays, and NERC Holidays. All other days are considered On-Peak for the purposes of transmission service charges.

Transmission Service Increments Offered Under the Tariff

Point-To-Point Transmission Service and Network Integration Transmission Service are further characterized by service increments and windows, consistent with the version of NAESB Wholesale Electric Quadrant (WEQ-001) Business Practice Standards incorporated pursuant to Attachment R-1 of this Tariff. The Transmission Provider offers only the following service increment and window combinations:

Fixed Hourly – The service starts at the beginning of a clock hour and stops at the end of a clock hour.

Fixed Daily – The service starts at 00:00 and stops exactly 24:00 of the same calendar day (same as 00:00 of the next consecutive calendar date).

Extended Weekly – The service starts at 00:00 of any date and stops at 00:00 more than one week later, but less than four weeks later.

Extended Monthly – The service starts at 00:00 of any date and stops at 00:00 more than one month later, but less than twelve months later.

Extended Yearly – The service starts at 00:00 of any date and stops at 00:00 more than one year later.

Transmission service products are offered and processed only in Central Prevailing Time, as defined in Attachment X of the Tariff. Transmission Provider utilizes the 24-hour clock convention of time keeping.
